Attached is the NMOGA's membership application and committee selection form.

The purpose of the New Mexico Oil & Gas Association is to provide a collective forum through which the oil and gas industry can interface with the New Mexico political system and the public in general. The Association provides a means whereby members may work together effectively to stimulate business and avoid discriminatory, unfair, or unnecessary regulation or legislation harmful to the conduct of the oil and gas business in New Mexico.

The Association expects to provide its members with comprehensive and helpful information on subjects relating to the industry which it encompasses. This includes, but is not limited to, the leasing of properties, exploration, development, drilling, production, natural gas, transportation, refining, and marketing of oil and gas within the state of New Mexico. The Association extends its work by compiling pertinent data and instituting appropriate public and government affairs programs.

The 2011 minimum dues are \$620 for members (actively engaged in producing, refining, or transporting oil or gas), \$1,100 for associate members (law firms, banks, consultants, utilities, etc.)

GENERAL, COMMITTEE, AND LEGISLATIVE MAILINGS

The work of the Association is accomplished to a great extent through various expert committees. Only through the concerted, voluntary, expert efforts of committee members are we able to competently pursue the increasing variety of regulatory and legislative issues and arrive at an industry position.

Please indicate below the committee or committees in which you are interested. Do not hesitate to indicate more than one committee and return this form with your membership application. This will not obligate you to actively participate. However, you will receive reports and notices of that committee's activities.
